**All Star United – "let's get crazy: b-sides, rarities, and previously unreleased material" (EP) [ 2000/01 All Star United / allstarunited.com ]**

**1. Let's Get Crazy**

I'll be your number one  
I'll be your super charged  
I'll be your Superhero baby when you're seein' stars  
I'll be your everyone  
I'll be your only friend  
And when you're zero, baby, I could be your perfect ten

Don't go bringin' me down,  
I'm on your side  
Don't go stoppin' us now,  
I'm on the rise  
Don't go bringin' me down,  
Everybody wants to fly

Chorus  
Don't know about you  
So beat up and blue  
If you're sick of it  
Let's get crazy  
No keepin' it cool  
I'm breakin' the rule, just a little bit  
Let's get crazy

I'll be your guiding light  
I'll be your silver sun  
I'm gonna be the dynamite to make come undone  
Cause if you want it all, you've got to give it all  
You've gotta lose control to get it when you hit the wall

Don't go bringing me down,  
I'm on your side  
Don't go stoppin' us now,  
I'm on the rise  
Don't go bringin' me down,  
Every body wants to fly

- Chorus -

Bridge  
Oh yeah  
And all the world is ours to take  
Until the world is wide awake...

- Chorus -

**2. Big Mistake**

I wanna know  
Why everyone knows your name  
We're so impressed  
With everything you do

I oughta go  
Where nobody knows your name  
It's such a mess  
For me to be with you

Does anybody feel the same?

Chorus  
Get off my back  
It's a big mistake  
Together you and me  
Get off my back  
It's a big mistake  
Can't you see

I wanna know  
Why everyone knows your name  
I must confess  
I wanna know you too

I oughta go  
Where nobody knows your name  
It's for the best  
For me to run from you

Does anybody feel my pain?

Chorus  
Get off my back  
It's a big mistake  
Together you and me  
Get off my back  
It's a big mistake  
Can't you see  
It's a big mistake (2x)

I wanna know  
Why everyone knows your name  
We're all the same  
We wanna be with you

I oughta know  
I know how you play the game  
A big mistake  
Is what you put me through

Chorus  
Get off my back  
It's a big mistake  
Together you and me  
Get off my back  
It's a big mistake  
Can't you see  
It's a big mistake (2x)  
Can't you see  
You're through with me!

**3. Satellite**

She's like the starlight  
It kills her as she glows  
She's about a million friends  
But no one knows

So far  
It's been hard

She falls to make her way  
She's a girl who needs to hear somebody say

Chorus  
It's alright (3x)  
I will be your Satellite

Like a candle to the darkness  
You will be my Sun tonight  
And me the earth  
That turns to feel You shine

Chorus  
It's alright (3x)  
I will be your Satellite

Bridge  
It's alright  
I'll revolve around you day and night  
Together we might make it  
Yeah, together we might make it through the night

Chorus  
It's alright (3x)  
I will be your Satellite  
Be your Satellite (7x)

#### **4. Fall On Me**

Fall on Me  
Come to Me with all your needs  
And when you're weary  
You can fall on

Me and you  
Are now becoming one from two  
Come to Me quickly  
Trust Me and we'll be  
Past the hard part  
Bring Me your broken heart

Chorus  
Fall on Me  
We will be together  
Always and forever, so  
Fall on Me  
We will be so sweetly  
Careless and completely in

Love, My dear  
Will conquer us and make it so clear  
Why we should bother  
Trusting each other  
That's the hard part  
Risking a broken heart

Chorus  
Fall on Me  
We will be together  
Always and forever, so  
Fall on Me  
We will be so sweetly

Careless and completely

Bridge  
Into the arms of one another now  
I'm gonna hold you so closely  
That I'll keep you from harm  
I wanna be the One to show you how  
You can fall on Me  
Fall on Me  
You can fall on Me

Fall on Me (I'll never let you down)  
Fall on Me (I'll always be around)  
Fall on Me (Give Me your broken heart)  
Fall on Me (Let's never be apart)

#### **5. Song For The Broken Hearted**

A song for the broken hearted  
Don't let them get you down  
Yesterday has departed

Whatever the world has failed you  
It won't make a difference now  
Today is the day we started

It takes a brave soul to stay  
Waving goodbye  
As they turn and walk away

A song for the broken hearted  
Whatever is on your mind  
Eventually will have faded

If everything came so easy  
We'd never put up a fight  
Then love would be overrated

It's hard to know just what to say  
To keep it inside  
As they turn and walk away

A song for the broken hearted  
Don't let them get you down  
Yesterday has departed

Whatever the world has failed you  
It won't make a difference now  
Today is the day we started

It takes a brave soul to stay  
Waving goodbye  
As they turn and walk away

A song for the broken hearted  
Don't let them ever get you down  
A song for the broken hearted  
Don't let them ever get you down
