Sarah Brendel – fire (Single) [2003 ZYX Music / 'Plattenläden'; online; bv-music; IC-Medienhaus]

1. Fire (Album Edit)

near to you is where I'm found
in the beauty of your sound
oh, come closer my friend
more of you and less of me

the words of your heart I must know
may my lips overflow
may my tongue sing always
more of you and less of me

consume me
consume me
consume me
consume me
fire, fire, fire, fire, fire
fire falling down on me

rain sweet music down on me
won't you paint my melody
'cause I can't compose myself
so I try to write this verse of longing

more of you
more of you and less of me

consume me
consume me
consume me
consume me
fire, fire, fire, fire, fire
fire falling down on me
consume me
consume me
consume me
consume me
fire, fire, fire, fire, fire
fire falling down on me

real Jesus, come to me
real Jesus, come to me
real Jesus, come to me
more of you and less of me

[Solo]

consume me
consume me
consume me
consume me
fire, fire, fire, fire, fire
fire falling down on me
consume me
consume me
consume me
consume me
fire, fire, fire, fire, fire
fire falling down on me
falling down on me

near to you is where I'm found
in the beauty of your sound

3. Babel Towers

I stood accused and guilty of many crimes
I went and burned my offerings a thousand times
I know the place the landscape been here before
I will not walk the bad mile anymore
'cause I have seen the sun that I shine
comes down like pouring waters

and two wrongs will never make a right

many times what we're believing
is bound to change just like the season
we're blind eyed of short side
mistake the darkest night for the light of day
(ohohoh...)

so if tonight I'm leaving and finally let go
maybe you'll find a freedom you've never known
you're pushed into the twilight against your will
and for a timeless second you're heart stands still
but cutting through the veil of despair
a gentle wind is blowing breathing live on weary bones in
chains

many times what we're believing
is bound to change just like the season
we're blind eyed of short side
we know not wrong from what's right
and as we sink into the misery of what we are

and what we should be
we let go of our shadows and in the end we know
our true face of pure grace a spirit fair and always
we will dance we will fly
everyone is so afraid to try

what if we would finally let go
(ohohoh...)

what if we would finally let go
only to find
only to find

what if we would finally let go
of all our Babel towers
only to find we're all we need to be
